

## **Pediatric Psychology Associates is Pleased to Announce the Launch of our Multi-Disciplinary Developmental Clinic**

If you believe that your infant or toddler may have a cognitive, developmental, or language delay, or if your young child is having emotional or behavioral challenges, an early developmental evaluation may be warranted. Multi-Disciplinary Developmental Evaluations are the most effective and efficient method for assessing whether a child is developing appropriately and for identifying areas of need. The evaluation examines a child's development (from birth to 3 years of age) in major areas of functioning, such as:

- ✓ **Cognitive Skills**
- ✓ **Language and Communication**
- ✓ **Gross and Fine Motor Skills**
- ✓ **Social Skills**
- ✓ **Behavior/Temperament**

Our *Multi-Disciplinary Developmental Clinic* (MDDC) uses an "arena style" approach (the child, professionals, and caregivers are all in the evaluation together). Our experienced clinical team has been carefully selected for their expertise in early childhood and includes a Pediatric Psychologist, Pediatric Speech/Language Pathologist and Pediatric Occupational Therapist. *Pediatric Psychology Associates* is pleased to be partnering with *Kendall Speech and Language Center, Play To Learn, and Connections Therapy* for these assessments.

Our evaluations are comprehensive and we discuss the results of the evaluation with the clinical team at the time of the evaluation. Additionally, we provide a written summary of the results and individualized recommendations.

**Fee for this comprehensive Multi-Disciplinary Developmental Evaluation is \$1000  
Now accepting appointments**

*Helping families and children to a better future*

Our Mission at *Pediatric Psychology Associates* is to provide comprehensive evidenced-based psychological services to children, adolescents, adults, and their families in the South Florida community. Each psychologist on our expert clinical team works collaboratively utilizing an innovative approach that combines science, wisdom and compassion to maximize psychological growth in each individual.
